

Temple-Inland

December 17, 2008

To Our Valued Customers:

As 2008 ends we look back on what has been a challenging year for the construction industry. Needless to say 2009 seems to be shaping up as more of the same. To strategically position ourselves for the future and to support our distribution customers, Temple-Inland Fiberboard and Continental Materials, Inc. are teaming up; we are actually expanding our current business relationship. Our partnership is not new; our two companies have in fact been doing business together since the 1980's.

To further strengthen this business relationship and to support our customers in the marketplace, effective January 5, 2009, Continental Materials will be responsible for all sales and marketing functions for Temple-Inland's Fiber Base roofing products to roofing distributors throughout the United States. Customer service functions will also be coordinated at Continental's headquarters. Placement of orders, product inquiries and price quotes should be directed to Continental Material's order entry department at 1-800-24-ROOFS.

In 2008 both companies celebrated their 50th anniversaries serving the construction and roofing industries. We continue to be committed to providing quality manufactured components, making construction systems perform better and offering the best service to you our customer. We look forward to a smooth transition and if you should have any questions or concerns please feel free to direct them during the transition to either of the undersigned.

Thank you for your support and best of luck to you in 2009.

Sincerely,

A handwritten signature in black ink that reads 'Gary Keeling'.
