

**“Quality Manufactured Components... Making Construction Systems Perform Better Since 1958”**

## PRODUCT DATA SHEET

**Product Name:** Galvanized Tin Caps (Tin Tags)

**Description:** **Tin Caps:** large round steel disc, electro galvanized for additional corrosion resistance. Used in conjunction with ring shanked nails for increased holding power. Ideal for holding roofing felts and base sheets in place that are prone to tearing when attached with just standard roofing nails.

**Dimensions:**

**Tin Cap Diameter:** 1-5/8”  
**Thickness:** 32 gauge

**Features:**

- Electro galvanized for corrosion resistance
- For use with all roofing underlayments
- Large surface area for superior holding power
- Easy installation and use
- Meets the requirements for Miami-Dade - Roofing Fastener and Batten Plate Listing - #17-0222.11.

**Finish:** Electro galvanized (standard)

**Uses:**

To improve holding power and uplift resistance of saturated felts and base sheets when used in conjunction with ring shanked roofing nails. For use when installing asphalt saturated roofing felt and asphaltic base sheets in multiple ply roofing systems or under asphalt shingles. Used with fasteners to create a larger surface area for holding materials in place.

**Packaging:**

- 50# cardboard boxes
- Durable 30# plastic buckets
